Dear Friends,

With great pleasure the Organizing Committee and the hosting Hellenic Society for Surgery of the Hand (HSSH) welcome you to the XIIth FESSH Congress in the beautiful city of Athens.

The Organizing and the Scientific Committee have put together a stimulating programme, combining high scientific standards, an Instructional Course on Infections of the entire Upper Extremity, symposia, free paper sessions and workshops that will cover the specific interests of all participants. The interaction between the outstanding faculty and the participants ensure that the programme will be rewarding for both sides.

The month of June is probably the most appropriate period to visit the spectacular city of Athens, the birthplace of Philosophy, Democracy and Olympic Games. Athens is currently one of the most livable and exciting cities to visit in the world. The Hilton Convention Center is ideally situated close to most worth visiting sites. The warm and dry climate offers the visitor the chance to walk around the archeological sites, experience the Greek hospitality and Athens "day and night" life. The nearby islands and beaches also offer the chance for short and refreshing excursions.

We are welcoming you to Athens.

The XII FESSH Congress in Athens is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS), www.uems.net.

The XII FESSH Congress is designated for a maximum of 15 hours of European external CME credits. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Please notice that in order to take the CME credits you have to return to the Registration Desk the answered questionnaires for the evaluation of the congress activities.
